STERILIZATION RATE

# HEALTH PROTECTOR DISINFECTANT CARD

1 CARD + 1 NECK STRAP

STUDENT

ELDERLY

KIDS

OFFICE

PREGNANT

## WHAT IS RAPI-G DISINFECTANT CARD?

An Innovative preventive Technology that give us Chlorine Dioxide To Eliminate all forms of Microbial Life such as Viruses, Bacteria, Fungi, and Spores providing you with ultimate protection against airborne infectious diseases like Influenza, Cold, Cough, Allergy, Respiratory Infection, Tuberculosis.

## HOW DOES RAPI-G DISINFECTANT CARD WORK?

1. Once open it start releases Chlorine Dioxide - a safest and one of the most powerful antimicrobial agents.
2. Chlorine Dioxide is used in many personal hygiene products such as mouth wash, tooth paste and breathe strips.
3. Disinfectant Card uses the power of Chlorine Dioxide That helps to protect your breathing space.
4. Disinfectant Card continuous releases Chlorine Dioxide up two 25 to 30 days that helps keep you safe.

## MECHANISM OF ACTION

Chlorine Dioxide  $\text{ClO}_2$  acts as an oxidizing agent and reacts with the compounds within the cells and on the surfaces of the cell membranes causing cell metabolism to be disrupted. It has been Proven Effective as Virucidal, Bactericidal, Quick Allergy Relief, Sterilizer, Deodorizer

## **CHLORINE DIOXIDE'S MAIN STRENGTH?**

Traditional Sterilizer enters inside the pathogenic killer that will take longer time and give them chance to go resistance. Chlorine Dioxide basically attacks pathogenic to oxidation of other layers kills them within 30 - 60 secs, laterally burning them apart today no organism shown resistance against Chlorine Dioxide.

## **WHO CAN USE RAPI-G DISINFECTANT CARD?**

Immune - compromised Patients with autoimmune diseases, Patients under chemotherapy, immune deficiency, inherited diseases that affect the immune system. Children and the elderly providing poor protection against air borne infections. Pregnant Women pervading air borne infections Allergen illuminating fungi and power allergens Nosocomial infection and reduce the risk of possible infection.

## **WHERE YOU CAN USE RAPI-G DISINFECTANT CARD?**

Disinfectant Card can be used anywhere! Especially in Hospitals: Healthcare workers and during visits Work place: Dealing with public, working closely with others Schools and In the Public: Wherever you are exposed to lots of other people Traveling: Airplanes, Buses, Trains, or any other Public Transport
